

Gold Class

This term we are exploring Space. So far, we have enjoyed our sensory stories on space and exploring with our senses lots of different materials. We like taking part in our "first thing in the morning" sensory activities, these have so far included mindfulness, Tac Pac and for some Sherbourne Movement. We have explored different light in My Thinking and made some amazing space rockets that glowed in the dark.

In My Communication, we had a go at mark making on foil, which made an interesting noise when we used our tools or hands on it.

We are also working hard on our physio programmes and we doing really well. We have also enjoyed our sensory tent in class.
