

# Charcoal Class Monthly Update: February 2024

Spring is nearly here!

This month in RE we were learning more about Buddhism. We learned that the Buddhas birthday is called Wesak.

We followed our own Special diet recipes in cooking. Our favourite was the yummy Oreo cookie one.

Our Stars  
of the Week, this  
month are;  
Ashton, Bella,  
Dylan and Ashley  
Congratulations!

In Discovery we finished looking at rivers and compared part of the River Wey in Bordon, to part of the River Nile in Egypt. There are no crocodiles in the River Wey!

In Maths some of us have been exploring 3D shapes, some have been looking at fractions and some of us were rounding decimals to the nearest whole number.

In English we put on our 'shadow puppet' playscript performances and tried to remember what each person said. It was tricky to do.

This month in PSHE we have been thinking about our confidence and feelings. We updated our Zones of Regulation tool kits, adding some more.

We are exploring sound and light in Science. This week we did an experiment with sound using the speakers in the laptops. We compared it to when we added bubble wrap, tissue paper and some cloth materials.
