

Orange Class

Everyone had a good rest during half term and we have made a great start to this half term. In November we had Riley's and Corin's birthday. We enjoyed the cakes and snacks they brought in for their birthday. Thank you very much!

In maths we started learning about money. Some of us are learning to recognise the coins, others are adding coins together and some of us are working with pounds and pence, ways to add these and also calculating change.

During the PSHE lessons we are learning about safety. We first learnt about rules and that rules are there to keep us safe.

We are very lucky this half term as Elsa is coming into our class to do yoga with us. We are learning different poses, good breathing techniques and at the end of each session we have relaxation. We are all enjoying these sessions a lot.

During activities on Friday afternoon we are joining up with red class this half term. We split all of us in two groups and we do two half an hour activities. The activities can be creative like collage and painting or more active like dancing.
