

## LIME CLASS

An Amazing April! We have enjoyed lots of Easter celebrations this month which included lots of arts and crafts and some planting. We made our own jumping chicks to take home for Easter, incorporating lots of different materials and creative techniques. Lime class have also been planting radish's, broad beans, strawberries and carrots. We then made our own sunflower diaries which have helped us to understand what a plant needs, We have planted our sunflowers ready to take home and share with family and updated our diaries along the way.
