

## LEMON CLASS

Now that we have all settled into our new school, we are fully engaged in our learning activities, focussing on our *Curricular Goals*. We have been growing cress and radishes, and exploring things that grow, including using all of our senses to explore fresh herbs and pumpkins. In our creativity sessions, we have continued to explore paint, painting on paper, card and 3D objects. We enjoy lots of physical activities, and have explored our playground, the main playground and the Soft Play Room to build on our gross motor skills.
