

## Class

April has been an exciting month for Green Class, full of adventure and new learning experiences!

Pupils wrapped up their final Forest School session with enthusiasm, mastering the art of fire-building and cooking a variety of delicious treats over the flames. Their adventurous spirit continued with the *Go Wild* climbing activities, where they tackled rope climbing and even enjoyed a small zipwire!

In Maths, they've been sharpening their number skills, focusing on measurement by exploring lengths and dimensions in the classroom. Meanwhile, in history, they concluded their fascinating topic on Romans in Britain with a celebratory banquet and the creation of clay forts—bringing history to life in a hands-on way!

April wouldn't be complete without Easter celebrations, and the children thoroughly enjoyed a range of festive activities, including a special visit from the Easter Bunny.

As we step into the summer term, pupils are diving into their new topic: *Heroes!* They are already developing their creative writing skills by exploring news articles and how to craft engaging reports. In RE, they've been learning about Buddhism, discussing important symbols and reflecting on meaningful aspects of their own lives.

With warmer weather finally here, everyone is looking forward to a fun-filled term ahead!
