

PINK CLASS

Pink class have been learning about technology in our ICT lessons. We have found out that there is technology in lots of our favourite items and that technology can be used to make light, sound and movement. We have explored how to turn things on and off, pressing buttons, using switches and seeing the cause and effect on lots of different resources and toys and how they work. We realised that sometimes they need batteries to make them work and without these they are broken ! We used an ALD board to help us use the words that explain technology.

Technology

I, me	want	press	play	game	move	broken
you, your	see	click	computer	sound	button	wind
	hear	turn on	speaker	lights	no sound	technology
	like	turn off	Cause	effect	battery	push
not	next	oops	more	help	stop	finished
