

Charcoal Class

As part of their PDL (Personal Development Learning) Charcoal students had the opportunity to attend a two-day residential experience at Runways End. Activities included team work, orienteering, low ropes and climbing, and then campfire with toasted marshmallows in the evening. The food was described as being fab with lots of choice (pizza, waffle with chocolate sauce and cream, cooked breakfast). These two days saw our students build their confidence especially trying new activities and supporting / encouraging each other. Those who did not go away remained in school and had more relaxed lessons eg playing science bingo, food tech and having Miniland Farm visit with a range of animals. The two days gave students the opportunity to mix, work with, support and develop friendships that otherwise would not have happened.
