January 2026

This month in Lemon Class

This month in Lemon Class, we have been busy exploring our environment and using new skills to play and investigate with different resources. We have enjoyed investigating everyday objects, using our problem-solving skills to sort, match and order different items.

STAR OF THE MONTH

Oliver – for great communication skills.

CARE

We are enjoying exploring different weather outdoors – please send in appropriate clothing and changes of clothes!

DO YOU HAVE?

We are making collections of everyday objects – do you have any spare clothes pegs we could have (any colour/size/material)?
