

Monthly Update

January 2026

This month

The new term began with a surprise snowfall on our first day back, which brought lots of excitement to the playground.

Back in class, everyone has been settling well into their routines again. Pupils have been developing their social and communication skills through games such as *What Am I?* and through construction activities using Lego and magnetic tiles. In Science, the class has been investigating forces and magnets, enjoying plenty of hands-on exploration. In Computing, pupils have begun programming using ScratchJr, learning how to create simple sequences and animations.

STAR OF THE MONTH

Kayden – for improving his skills in managing his emotions.

Notice

Remember to check Home-Link books for any messages or notes.

Timetable change

A reminder that PE is on Mondays. Please can children come to school in their PE kits on Mondays.
