

January 2026

This month in Blue Class...

This month we have been settling back into our school routines after an exciting Christmas break.

We have been making pizzas from scratch, and are focussing on “kneading” in food tech. We are keeping up with our communication, exploring feeling different emotions and what it does to our body, and in Science we are experimenting with combining household chemicals.

Angry

Excited

STAR OF THE MONTH

Adam – for his effort and cheerful participation in all lessons! Well done!

Food Tech

Don't forget to send in containers for Monday's Food Tech in case there is any left to bring home!

Other activities

Remember to bring in swimming things on Thursday's for those who are swimming this half term.
