

Gold Class

This month we have enjoyed making pizza in food technology, we concentrated on exploring the different ingredients and showing preference to them. We also have enjoyed doing lots of mark making, we particularly enjoyed using toy cars whose wheels were covered in paint down a ramp to make some marks.

We have also continued to develop our skills in My computing enjoying using switches to make things work and playing games on the IPADS.

In My World, we have also been exploring the story of Moses and Passover and Noah's Ark, using sensory stories to explore these topics.

We have also all continued to work hard on our phonics, some of us have enjoyed doing some work around the book Errol's Garden and working on reacting to sounds, others have been working on phase 2 and 3 work.
