

LEMON CLASS

This month, we have continued our Curricular Goal Learning, and explored lots of new activities. In our Fine Motor Skills learning, we have been exploring Dough Disco sessions. We have been learning to listen to instructions and manipulate the dough by squashing, squeezing, prodding and rolling it into different shapes. We have also experienced a very exciting event - a new swing being installed in our playground. We have all been enjoying using the swing, and have learned lots about sharing, taking turns, and waiting for our turn.
