

Silver

Update

November 2025

This month

Silver class have been doing some fantastic learning this month. We have been exploring colour mixing to make different colours for our animals from our brown bear, brown bear book. We have also made our own sequencing book as a class. We have had some special events in school. We have celebrated 2 birthdays, remembrance day and firework night.

Silver class were very excited about the snow, we practiced the Makaton sign and went out to the big playground. We have also started to transition to the food technology room – we all had a checklist and looked for things in the room. Hopefully we can start doing some cooking here soon!

STAR OF THE MONTH

Gracie

For transitioning into silver class and interacting with new peers and adults positively.

CARE

If your child wears nappies please send in supplies. Please look out for reminders in their home-school book.

COLD WEATHER

As the weather is getting colder and we are still continuing to go outside. Please could you pack some extra clothes that we can get the children changed into if needed and anything you think they may need.
