

Lemon Class

In October, we have continued our learning about 'All About Me!' and 'Autumn'. We have all settled into our new class and are beginning to access our favourite activities independently, both inside and outside.

We have been working on our Curricular Goal, 'I can make my own sandwich' through practicing our spreading skills, using a knife to spread our chosen toppings onto crackers and toast.

In Maths and Phonics, we have been exploring nursery number rhymes to help develop our counting and story telling skills. Our favourite so far has been 'Five little Ducks'.

We have been exploring mark-making in different ways to develop our drawing and writing skills, including using whiteboards and pens, and the Interactive Whiteboard.
