

## Gold Class

Our topic this term is the circus, we have started exploring the circus by taking part in a sensory story and exploring what people in the circus might put on to make us laugh. We have also decorated big tops and made pictures of juggling balls out of paint, a salad spinner and a paper plate. We also have made some paper plate clowns, by sticking there features onto a paper plate.

We also have enjoyed learning to play skittles and to take turns when playing and some of use are continuing to enjoy rebound therapy. As the weather is now warming up, we have also taken the opportunity to get outside and use the swing. We have also been practicing recognising a photo of ourselves, some of us were so good at this that we are now practicing just recognising our name.
