

Pink Class

We have had a lovely month this May in pink class, we are still looking at different transport and had fun exploring old and new vehicles as well as different vehicles around the world. We are still enjoying our visits from Hope the dog, some of us are becoming braver and getting closer to her. In maths we have still been exploring our number recognition with different games, like number hunts, ordering and even refreshing our 1:1 correspondence. In Science we are still looking at different forces, we have explored several but particularly enjoyed looking at sink and float. We also had great fun in our own 'hot air balloon', we discussed what it would look like from the balloon and how small things would look. Earlier in the month we enjoyed a visit from the pet farm and celebrated the Kings coronation.
