

# Purple Class Monthly Update: April 2023

Our topic this transport: land , air and sea. In Discovery we are sensory exploring different types of transport ,like air balloon and boat .As a cross curriculum activity for Science , Purple Class begins to explore what sinking and floating means ,making our own boat of playdough ,and trying to make it float .

Stars of the week  
for this month

Fiyin

Congratulations!

In English ,Purple Class wondered 'Who sank the boat ' engaging in the story through sensory experience and we are developing our reading skills by doing activities to be able to recognise our name.

In Creativity, we made our own boat and windmill. Purple class was quite curious, using different resources to make their own windmills.

April was all about promoting independence and the value of interacting with our peers.
