

Purple Class Monthly Update: May 2023

This month, Purple class has been immersed in the topic of transport. Through sensory exploration, we delved into the realm of trains and buses. The pupils had the opportunity to engage their senses by examining the textures, shapes and sounds associated with these modes of transport. To enhance the learning experience, we embarked on an exciting bus trip, where the pupils had the chance to exchange coins for a bus ticket. This activity allowed pupils to practice real life skills.

Congratulations!

In maths, Purple Class had the opportunity to explore the topic of 'capacity' through play. Pupils engaged in a play pretend capacity café, pupils enthusiastically participate in hands-on activities, such as pouring different quantities of liquid in cups.

In PE, Purple Class pupils used the PE hall filled with different equipment to develop their balancing skills. Pupils had a fun and dynamic learning experience, but also developed their body awareness and spatial understanding.
