

Charcoal Class Monthly Update: May 2023

In English the students have been reading a variety of poems and picking out adjective, verbs, nouns and adverbs they can see. They worked together in groups to memorise a poem we have been working on 'Save the planet'. They were excellent in their performance.

Stars of the week
for this month
The whole class
has been
included this
month.
Congratulations!

In Maths we have been learning about fractions, how to add and subtract them. They picked this up quickly and can apply to both groups of objects and dividing one object.

In Science we have been investigating magnets and found out not all metals are magnetic, which surprised the class!

This month has been jammed packed with lots of events (Coronation Week, Panathlon and the upcoming Roman day) and wanted to thank the parents for their support to make these events happen!
