

Welcome to Aqua class's monthly newsletter.

We have put the photographs of our enrichment sessions up on the board outside of our class room. It is great to see all the great activities we took part in last term.

In English we have been collecting personal information from the peers in our class room. This was things like, favourite subject, siblings, key stage, food likes and dislikes. We had some very interesting food dislikes!! Pupils then went on to present their findings from the front of the class. Some pupils found this a challenge but were happy to present from their seat. We will be looking at how to fill out application forms and the types that we might need to do as we move onto college and work settings.

Aqua have begun Yoga sessions on a Friday and everyone enjoyed this. Some pupils were a lot more flexible than others!!
