

Welcome to Aqua class's monthly newsletter.

Aqua class really enjoyed taking part in all the Coronation activities and got things started by putting up the celebratory red, white and blue bunting in readiness for the Coronation Friday events. As you will have seen from the Coronation news letter there was lots of fun to be had as well as wonderful creative work.

Unfortunately, we were unable to have our usual Yoga session last week so we walked a mile, without leaving the classroom!! Everyone worked hard and really enjoyed themselves! We have been discussing our mental health and how important it is, so to fit in with the week's British Values, mental health awareness week, we completed this session by lying on the Yoga mats and used appropriate music to help us to calm and re-focus our minds.

Year 10's have been practising putting Trangias (camp fire equipment) together. They worked in small groups to assemble and disassemble the Trangias. Once they had completed this they observed Mr Mullarkey lighting them. Year 10's will be using Trangias during their D of E activities.
