

Lemon Class

This half term, we have started learning about our new topic, 'Under the Sea'. We have been exploring the stories 'This is Not My Hat' and 'Shark in the Park'.

In Creativity, we have used paper bowls to make jellyfish, handprints to make an octopus and fish, and old CDs to make sparkly fish.

In Food Technology, we have continued to work on our Curricular Goal, 'I Can Make a Biscuit'. We have, for the first time, been making the biscuits from the beginning, mixing our own ingredients and following a simple recipe.

In Maths, we have been focussing on recognising numbers, and matching numerals to quantities. We have also been finding out about different sizes.

We have been very excited to see cows in the last few weeks, in the field behind our playground. We have been learning to be respectful and be quiet when we watch them.
