

Lemon Class

In April, we have begun our new topic, 'Weather and the Seasons'. In the first two weeks of term, we have been focusing on rain and water. We have been learning about the story 'Jasper's Beanstalk'. We have planted our own cress seeds and have been learning to care for them by watering them. We have explored digging, planting and growing through our sensory story, and will soon be planting beans to grow our own beanstalks, and sunflower seeds to grow sunflowers in our playground.

As part of our Curricular Goals, we have been exploring creating artwork outside. We have mixed powder paints and used paintbrushes to flick paint and make marks on large pieces of material. This has also helped us with our turn-taking and sharing skills.
