

Lemon Class

In May, we have continued our topic, 'Weather and the Seasons'. We have been focusing on finding out about the seasons through the story 'Stick Man'. We have made our own Journey Sticks, finding flowers, feathers and leaves outside on a spring walk, and have explored ice as part of our learning about winter. In Food Technology, we used chocolate mini rolls to make chocolate Stick Man cakes.

We also all enjoyed the farm visit to our school. We loved seeing and touching the chickens, ducks, guinea pigs and rabbits.

We had fun celebrating the Coronation of King Charles III. We played lots of different sports on the field, and enjoyed our family day, planting seeds and having an ice cream and cream tea with our families.
