

In Lime class our topic this term is Weather and Seasons. The past two weeks we have been focusing on the season Summer.

We have been focusing on the story Stick Man. We have really enjoyed joining in with the sensory story of Stick Man. We have enjoyed planting so much that we decided to plant again and plant some pea pods and cress seeds.

In our Expressive Art session, we have been busy creating our own beach in a bottle. We concentrated really hard when we added the sand and water to our bottle.

In Food Technology we had great fun making our own chocolate stickman.
